

# UTAH BIKE SUMMIT

Our Streets. Our Trails. Our Future.  
 Tuesday, April 19, 2022  
 Davis County Conference Center - Layton, Utah

Time	Session	Conference Area	Session Title	Speakers	Session Description
8:00 - 9:00 AM	Registration	Lobby			
9:00 - 9:30 AM	Opening & Welcome	Meridian - B		Jenn Oxborrow	
9:30 - 10:10 AM	Keynote	Meridian - B	Building Cities to Support Dignity, Justice, and Well-Being	Dr. Robin Mazumder	The keynote will explore how the design of our cities impacts wellbeing, and the role the built environment, including infrastructure, plays in ensuring happy citizens. Robin will draw from his experience as a mental health occupational therapist as well as his neuroscience research, to share stories and insights on how we can build our cities to support dignity, justice, and well-being.
10:10 - 11:00 AM	Keynote Discussion	Meridian - B		Dr. Robin Mazumder Chris Wiltsie	
11:00 - 11:15 AM	Break	Common space			
11:15 AM - 12:00 PM	Workshops	Outdoors	Layton Mobile Active Transportation Tour	Bike Utah staff Layton City Staff	Join us for a 45 minute bicycle tour of Layton City. Along the route city employees will discuss their community's goals around First/Last Mile improvements to the FrontRunner Station, a pedestrian overpass, and their Historic Downtown plans. This tour will provide insights and discussions on the challenges and opportunities communities throughout Utah are engaged with.
		Meridian - B	Advancing Cycling Policy in Utah	Darcy Goddard Tracy Meier Representative Jen Daily Provost Representative Jeff Stenquist Senator Todd Weiler Jenn Oxborrow - Moderator	A panel discussion on the challenges of advancing cycling policy in Utah. You'll hear from state legislators, county attorneys and National Ability Center Program Manager Tracy Meier on representing the communities they serve and the value of cycling and active transportation.
		Zephyr	Forward Design: Forms of Commuting - All Ability	Amanda King Blair Tomten Meaghan Farrell - Moderator	Join in on this engaging conversation about next steps forward in all-ability infrastructure design. Our speakers will discuss how improvements can be made to increase rider safety and accessibility. You will also hear from an engineer who will unpack national standards of all-ability cycling infrastructure and uncover any questions that you may have while designing trails or bike paths.
		Twilight 2	Business Economy: Open Streets	Hayden Andersen	Were COVID car free streets good for business? A national survey and in-depth interviews with local business owners reveal a recipe for the successful pedestrianization of commercial streets. Learn about this new data and how it can help address business owner's concerns for such projects in the future.
12:00 - 1:30 PM	Lunch	Meridian - C/D/G/H	Lunch & Awards Ceremony	Jenn Oxborrow Keili Bell Ashley Carlson Trilby Cox Vince Lok Chris Wiltsie	Through a presentation of photos, anecdotes, stories, and statistics, Bike Utah's Executive Director and Program Directors will share updates on efforts in cycling advocacy, education, and outreach throughout the state.
1:30 - 1:45 PM	UDOT Presentation	Meridian - C/D/G/H	Public Input: Design, Findings, and Regional Workshops	Angelo Papastamos Heidi Goedhart Alexis Verson Anne Williams	The Utah Department of Transportation (UDOT) conducted a statewide outreach effort to help inform active transportation needs in our communities throughout Utah. Feedback was solicited a variety of ways, with a focus on engaging diverse communities with varying transportation needs. Horrocks' public involvement and transportation planning teams led the effort by providing a variety of ways for the public to give input, offering multilingual materials, and inviting communities throughout the state to be involved. The effort resulted in more than 2,000 mapped comments received. This session will cover the findings of this outreach effort, discuss at a region-specific level what some of the active transportation needs are, and then provide an overview of how this data can be used for future planning efforts.
1:50 - 2:20 PM	UDOT Workshops	Meridian - B	UDOT Region 1	Christopher Chesnut	The Utah Department of Transportation (UDOT) conducted a statewide outreach effort to help inform active transportation needs in our communities throughout Utah. Feedback was solicited a variety of ways, with a focus on engaging diverse communities with varying transportation needs. Horrocks' public involvement and transportation planning teams led the effort by providing a variety of ways for the public to give input, offering multilingual materials, and inviting communities throughout the state to be involved. The effort resulted in more than 2,000 mapped comments received. This session will cover the findings of this outreach effort, discuss at a region-specific level what some of the active transportation needs are, and then provide an overview of how this data can be used for future planning efforts.
		Zephyr	UDOT Region 2	Neda Kiana	
		Twilight 2	UDOT Region 3	Alexis Verson	
		Twilight 3	UDOT Region 4	Anne Williams	
2:20 - 2:30 PM	Break	Common space			
2:30 - 3:15 PM	Workshops	Meridian - B	Riding is for Everyone!	Josie Fouts Maggie Gettys Amanda King Steph Meyer Jeff Waldmuller Steven Wilke Trilby Cox - Moderator	What would it take to make cycling more accessible in Utah? Join a panel of adaptive riders and allies as they discuss the small steps that we can all take to be inclusive. Whether you work in a shop, guide or instruct, build trails, or are bike enthusiast, this session has something for everyone. One in four Americans has a disability, and when we are inclusive for adaptive cyclists, we are inclusive for everyone.
		Zephyr	Cycling Tourism and Its Impact to Rural Communities	Elaine Gizler Katie Henneuse Flint Timmins Tara McKee - Moderator	This panel of local, regional, and state planners will discuss how to plan bicycle infrastructure that will attract tourists and their dollars to rural communities and explore the following questions. What are the pros and cons of developing bicycle tourism in rural communities? And how can a community benefit from visitors, while preserving their unique and vibrant community?
		Twilight 2	Rise of the First and Last Mile in Utah	Kayla Kinkad Austin Taylor Hugh Van Wageningen Stephanie Tomlin - Moderator	This panel will be a discussion on what makes quality first and last mile connections. Specifically, panelists will discuss the interconnection of land use, active transportation facilities, street connectivity, and the cultural realities affecting these.
		Twilight 3	Universal Infrastructure Design	Alex Beim - Moderator Ashley Cleveland Lara Handwerker Jem Locquiao Cristobal Villegas	How do we better create transportation infrastructure in our communities that reflect the aspirations of all those living in them? This discussion will consider how planning and advocacy efforts can support universal design and investment in underrepresented communities.
3:15 - 3:30 PM	Closing Remarks	Meridian - B		Jenn Oxborrow	
3:30 - 5:30 PM	Cycle Party	Lobby
